1. Attached is a security evaluation concerning Project [redacted] as submitted by the Project [redacted] Security Officer, [redacted]. The Office of Security requests that this report be returned to them at such time as it has served its purpose.

2. It is believed that [redacted] has made a conscientious attempt to be objectively critical. I am particularly desirous of having your comments to paragraph 12 of his report. Whereas it is understood that the matter goes to the very heart of CIA-Air Force support negotiations, if present procedures are so unusual within the normal Air Force method of doing business as to make our operations suspect, then it is suggested that the matter be reviewed in detail as soon as possible.
